

The League of Women Voters, at the local and state level, works to encourage the informed and active participation of its citizens in the local and in the state government. We work to increase the understanding of major public policy issues and influence public policy through education and advocacy.

We focus on the issues that our members care the most about. Each year, our membership is polled to see which issues are most important to them at the current point in time. Every local league within each state meets and determines their priorities. After tabulating each local leagues' submissions, the top areas become the priorities for the state annual legislative session.

For the 2022 Florida Legislative Session, the League of Women Voters of Florida have selected the following as legislative priorities:

1. Voting and Election Laws
2. Redistricting
3. Reproductive Health
4. Education
5. Environment and Natural Resources
6. Health Care

Each local league within Florida supports the same legislative priorities which the state league has chosen. These are based on the results received from the local leagues.

We believe that a government is its strongest when its citizens are engaged. We envision a democratic republic where all its members have

the desire, the right, the knowledge, and the confidence to participate. We work to have all individuals, households, communities, and policy makers engaged in creating a more perfect government.
